OFFICIAL PAPER OF LEWIS AND CLARKE COUNTY.

The INDEPENDENT has a larger daily circulation than any newspaper published in Montana. It has no press room secrets; its subscription books are open to inspection, and it is always ready to prove that its circulation is as represented.

Entered at the Postoffice at Helena as second-class matter.

Now that the election is over, the police may direct their attention towards the detection of the house-breakers who have been carrying on business without serious interference from the officers of the law.

The slant of the day requires some modification to fit the case of Corporal Tanner, the new commissioner of pensions. Instead of "getting there with both feet" he got there without any feet, having lost them both in battle.

We're not done voting yet, in Helena. A school election takes place on Saturday next, which should have the attention of all who are interested in the public schools of the city and wish to see them under efficient management.

HAVING rendered all the assistance required in the distribution of the federal patronage in Montana, Delegate-elect Carter may now return to his law books, trusting the administration of affairs in the future to the president, who will be ally and copiously advised by his son.

H. Z. OSBORNE, who, the dispatches say, is likely to be made public printer to succeed Mr. Benedict, is the editor and publisher of the Los Angeles (Cal.) Herald, a practical printer and a man of considerable executive ability. He was a delegate from California to the republican national convention that nominated Gen. Harrison for the presidency.

Gov. A. P. SWINEFORD, of Alaska, is disposed to be facetious about the probability of the termination of his executive duties. "It took me just one month to get from Alaska to Chicago," he said to a reporter, the other day, "and it will probably take me longer to get back." As far as can be observed at this distance, there is no hot rivalry for the Alaska governorship.

The Herald is getting abreast with events as they transpire. Just as one-sixth of the term for which they were elected has expired, the Herald substituted the list of the officers who entered upon the discharge of their duties last December for the roster of the officials who retired at that time. There is hope that the Herald may yet become a newspaper equal in freshness to a last year's almanac.

The story telegraphed from St. Paul about the adventures of two brothers named Williams, who were trapping on the Little Missouri when they were attacked by Indians and one of them killed, whereupon the other brother unlimbered his artillery and killed eleven of the savages, indicates that the liar who recently regaled the public from headquarters at Cheyenne has changed his base of operations and is now doing business in Dakota. The story would have found more credence in the east than here in the west. It lacks probability in a noticeable degree.

The latest appointment to office in this territory shows the hands of Russell B. Harrison quite as plainly as any that had previously been made. The appointment was not only associated with the president's son in one or two business ventures, but was the organizer and promoter of the banquet that was given to Mr. Harrison upon the occasion of one of his brief visits to Helena. Only two federal appointments of importance remain to be made for Montana, the internal revenue collectorship and the Helena postmaster. Forecasting the future by the light of the past, it is expected that those offices will be apportioned to personal friends. In the words of Flanagan, of Texas, "What are we here for?"

The crippled condition of the United States navy is shown by the fact that there are no vessels that can be ordered to Samoa to take the place of the ships wrecked in the recent hurricane there, and where they may be needed at any time. The democratic secretary of the navy did good service towards building up the navy, which was in an utterly broken-down condition when the Cleveland administration came into office. Several cruisers have been built in the last four years and others are in course of construction, but it will be years, even under the most favorable conditions, before the navy can be what it should be. A revival of Roanoke will be disastrous.

Another editor was appointed to a fat office by the president, yesterday, Ellis H. Roberts, of the Utica Herald, having been given the position of assistant treasurer of the United States at New York. Mr. Roberts has been many years in the editorial harness, his connection with the Herald dating from 1850. He has been throughout the years since it came into existence an ardent advocate of the republican party. His paper has been in a sense the special organ of the dairymen of Central New York. Mr. Roberts' appointment, however, is likely to increase the feeling of irritation among trade unionists which was occasioned by the selection of Whitelaw Reid for minister to France, because, like Reid, he has been a bitter enemy of the typographical union, and, in the parlance

of the fraternity, the Herald has been "a rat shop" for the last ten years or more.

THE MUNICIPAL ELECTION.
 The balloting yesterday in Helena resulted in the election of the republican city ticket and republican aldermen in all the wards except the first and second. Mr. Loeb succeeded in reducing the majority received by Mayor Fuller a year ago by the force of his personal popularity. Mr. Douglas, the treasurer-elect, is a gentleman of excellent character, and without doubt will discharge the duties of the office honestly and capably, as the gentleman opposed to him would have done had the choice of the people fallen upon him. Judge Sanders has had a year's experience as police magistrate, and in that position has made many friends. The defeated candidate for the first ward, had no opposition. Mr. Allen, in the second ward, is elected to succeed Mr. Worth, a democrat, and the gentleman chosen to represent the third, fourth, fifth, sixth and seventh wards succeed republicans in the board. If men had not been biased by political considerations and had looked entirely to personal fitness, it is more than a probability that the result, as relates to the aldermanic election, would have been different in at least one case. There is, however, nothing to be done now but to watch the words and votes of all the members. Conscientious members have nothing to fear from such scrutiny, while those who are not above suspicion may be deterred from wrong-doing by the knowledge that the eyes of their masters, the people, are upon them.

The canvass has doubtless brought to the knowledge of Mr. Fuller some particulars in which his administration of the city's affairs is open to criticism. As a gentleman who wishes to do that which is right, he now has the opportunity to give the city a better government than it has had; and if that is the only result of the brief turmoil incident to the municipal campaign the city will not be the loser.

RANDOM NOTES.

The search for Tascott, the alleged murderer of the millionaire, A. J. Snel, has thus far cost the family of the murdered man \$25,000.

San Small, the revivalist, has announced that he will make the race for congress in the fifth congressional district of Georgia upon the prohibition issue.

Australia has promised to give \$35,000 annually for ten years toward the building of the proposed new British ship canal, and to maintain the vessels when completed.

Australia has just made a projected railroad a grant of 16,000,000 acres, or 20,000 acres a mile. The grant to the Pacific railroad in this country amounted to about 6,400 acres a mile.

Mrs. Harrison is said to have made an arrangement with the manager of a New York news bureau by which she is to pay \$100 a month to know what all the news of the country say about the Harrison family.

Andrew Carnegie, the well known iron manufacturer of Pittsburgh, has written a letter in which he says it is certain that the South will soon be Pennsylvania's most formidable rival in the iron and steel industry.

Man is the most abundant animal on the face of the earth. It is estimated that his entire representation amounts to 1,250,000,000. Sheep come next, being 5,000,000,000 strong, while 200,000,000 horses complete the list of the five great animal species.

Chili is about to expend \$250,000 in the erection of light-houses along the coast, and the sum of \$500,000 is to be used in the light of immigration. Great numbers of Chileans have emigrated to the Argentine Republic, where they engage chiefly in cattle-raising. It is estimated that 5,000 have departed during the last three years.

There is a rumor at Los Angeles that Rev. Sam Jones has formed a syndicate of prominent capitalists from Atlanta and Chattanooga for the purpose of purchasing the "100 street property" where the foundations for the projected Hotel Splendid are laid, and that the syndicate intends building a university, church for revivals, religious conferences and conventions.

Actresses and singers are booming towns in California and Kansas with sweet ingenuities. Emma Abbott, widow of Los Angeles, "This place is a perfect Eden, and last night, in the grand scene of 'Lust in the Temple,' I wore real orange blossoms." Januskausk owns some real estate in a Kansas town, and in playing the part of Mrs. Morris she said the "property stick" and uses a sturdy hoop pole out from the Cottonwood bottoms.

One of the youngest members of the incoming congress and the youngest in the Pennsylvania delegation is James Kerr, democrat, of the twenty-eighth district. Mr. Kerr is an energetic business man. He is only 27 years of age, a little above medium height, and extremely slender in figure. He wears a heavy red mustache and is considered rather handsome. His election to congress was a great surprise to him and his friends.

A leading clergyman of Louisville was suddenly called away, and a substitute preached to his congregation. The substitute had no sermon notes, and he used one of the regular minister's manuscripts. The sermons on the margin kept him suffering all through a deep and serious discourse, much to the wonder of the congregation. Among other notes were, "bible lip bitters," "extreme agitation," "pious smile," "loud, ringing voice."

Miss Annie Watanabe, daughter of the postmaster-general, it is predicted, will be one of the most popular members of the administration circle. She is about nineteen, and pretty and handsome, according to the verdict of those who are acquainted with her. At present she is in Europe with her mother. She has not yet made her debut in society, but will undoubtedly do so as soon as the family settles in Washington.

Lucky Baldwin will abandon the racing circuit after this season and in June he will sell all his yearlings in New York. Hereafter he will devote himself to breeding. Volante, the greatest racer from Los Angeles, who broke down last year, is entirely recovered, and Bob Campbell, his trainer, says he will be better than ever this year. Honduras, Cito and San Diego are the likeliest looking two-year olds in the stable. The two former are by Grindstone.

CHANGE OF TIME.

Through Chair Cars to Kansas City. The Minneapolis & St. Louis railway, "Albert Lea Route," ever ready to meet the demands of the traveling public, upon March 17th, 1889, inaugurated a through chair car service between St. Paul, Minneapolis and Kansas City, leaving St. Paul daily, except Sunday, at 9:10 a. m. Minneapolis at 9:50 a. m.

These cars are models of perfection and in many respects are superior to those run by any road. The interior is finished in selected and exquisitely polished woods of mahogany, cherry and oak. The curtains, carpets, etc., in harmony of design and color form an ensemble pleasing to the eye and gratifying to a cultivated taste.

No pains or expense have been spared to make them the most comfortable and enjoyable of their class in America.

For maps, rates, time cards, etc., address nearest L. E. agent, or write to Passenger Agent, S. F. BOND, M. T. & P. A., Minneapolis.

Winter Excursions to California.
 On the 15th day of every month the Northern Pacific Railroad company will sell excursion tickets to San Francisco and return, at \$75; to Los Angeles and return, \$84. These tickets have an extreme limit of six months from date of issuance, and can be used going any time within sixty (60) days from date of sale. Stopovers allowed at any point desired—either going or returning—within limit of ticket. Excursionists have choice of two routes from Portland—by steamer, or by rail, via the famous Mount Shasta route.

San Francisco and Los Angeles Excursion Rates.
 On January 15th and the same date each month thereafter, the Union Pacific railway company will sell excursion tickets to San Francisco at the following rates: from Helena, going and returning via Ogden, \$75; going via Ogden and returning via Portland (either by rail or steamer between San Francisco and Portland) or vice versa, \$80. Los Angeles and return, \$84. Tickets to the above points include side trips to Salt Lake City and return. All the above tickets are good sixty days going, and thirty days returning. Tickets are valid in either direction within the limit. Through Pullman cars between Helena and Portland via the Montana Central and Butte, leaving Helena daily at 7:30 a. m.
